26

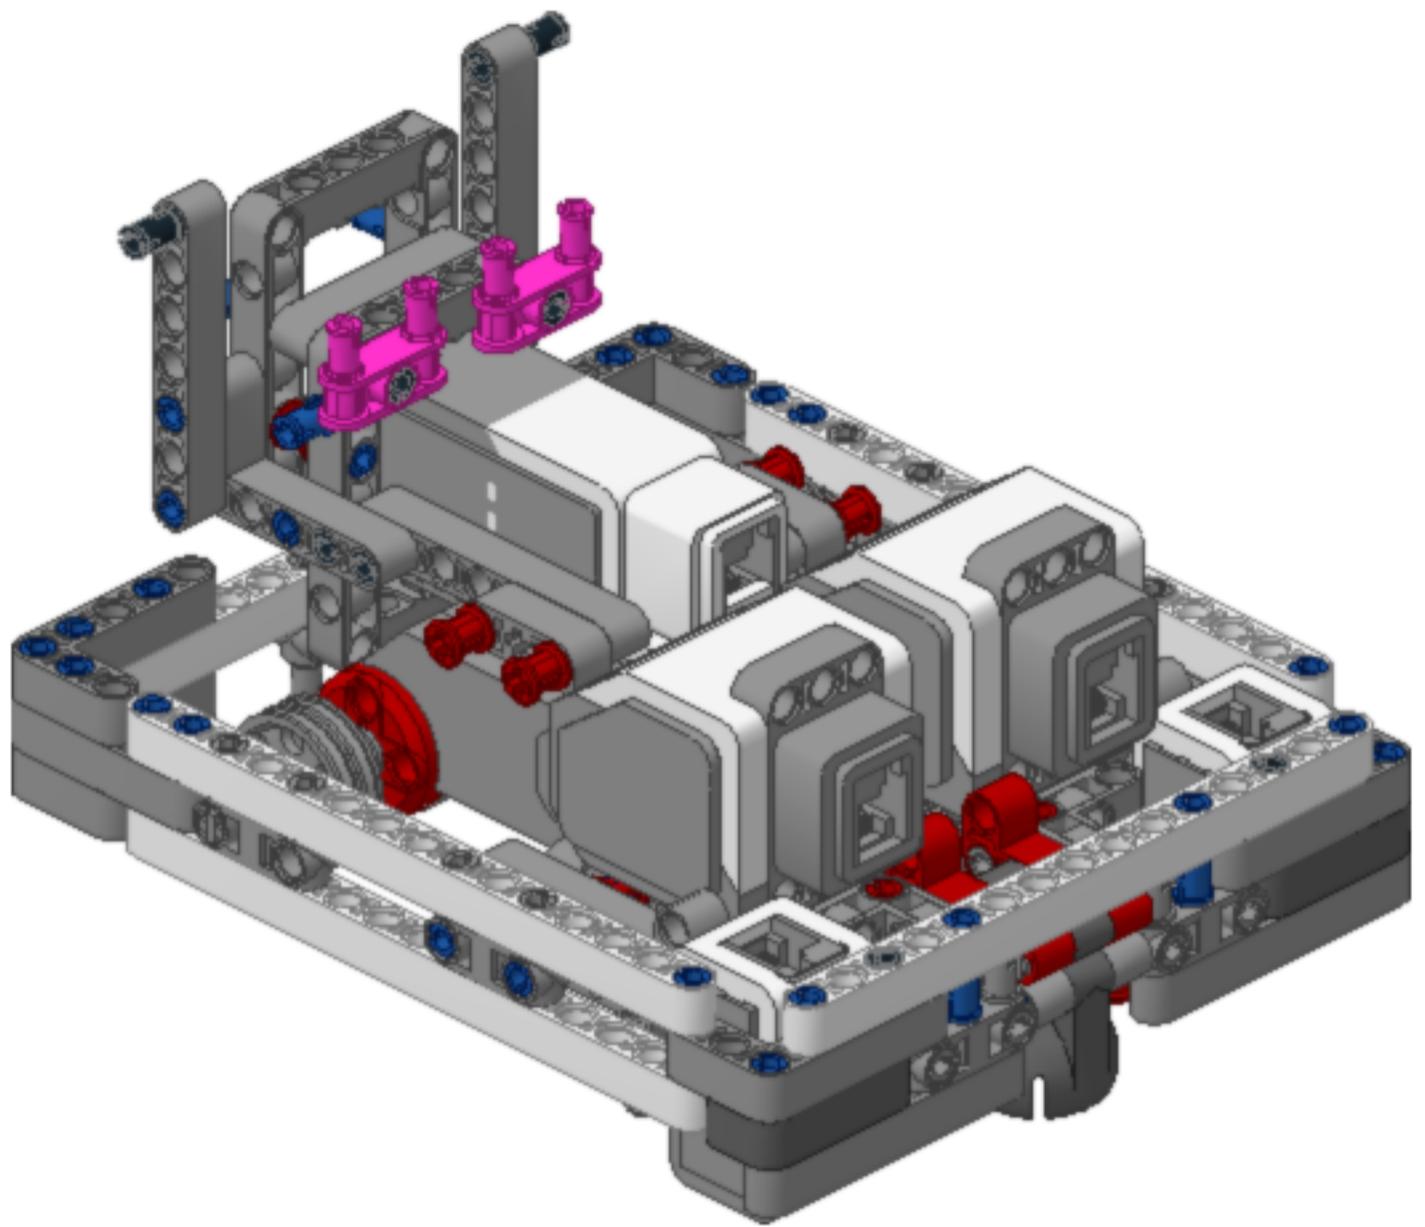

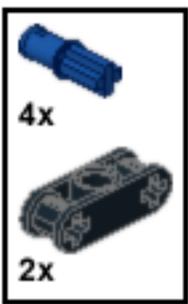

Wichtig: Jetzt gleich ein kurzes Kabel an den Motor anbauen

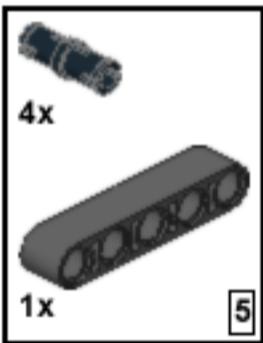

27

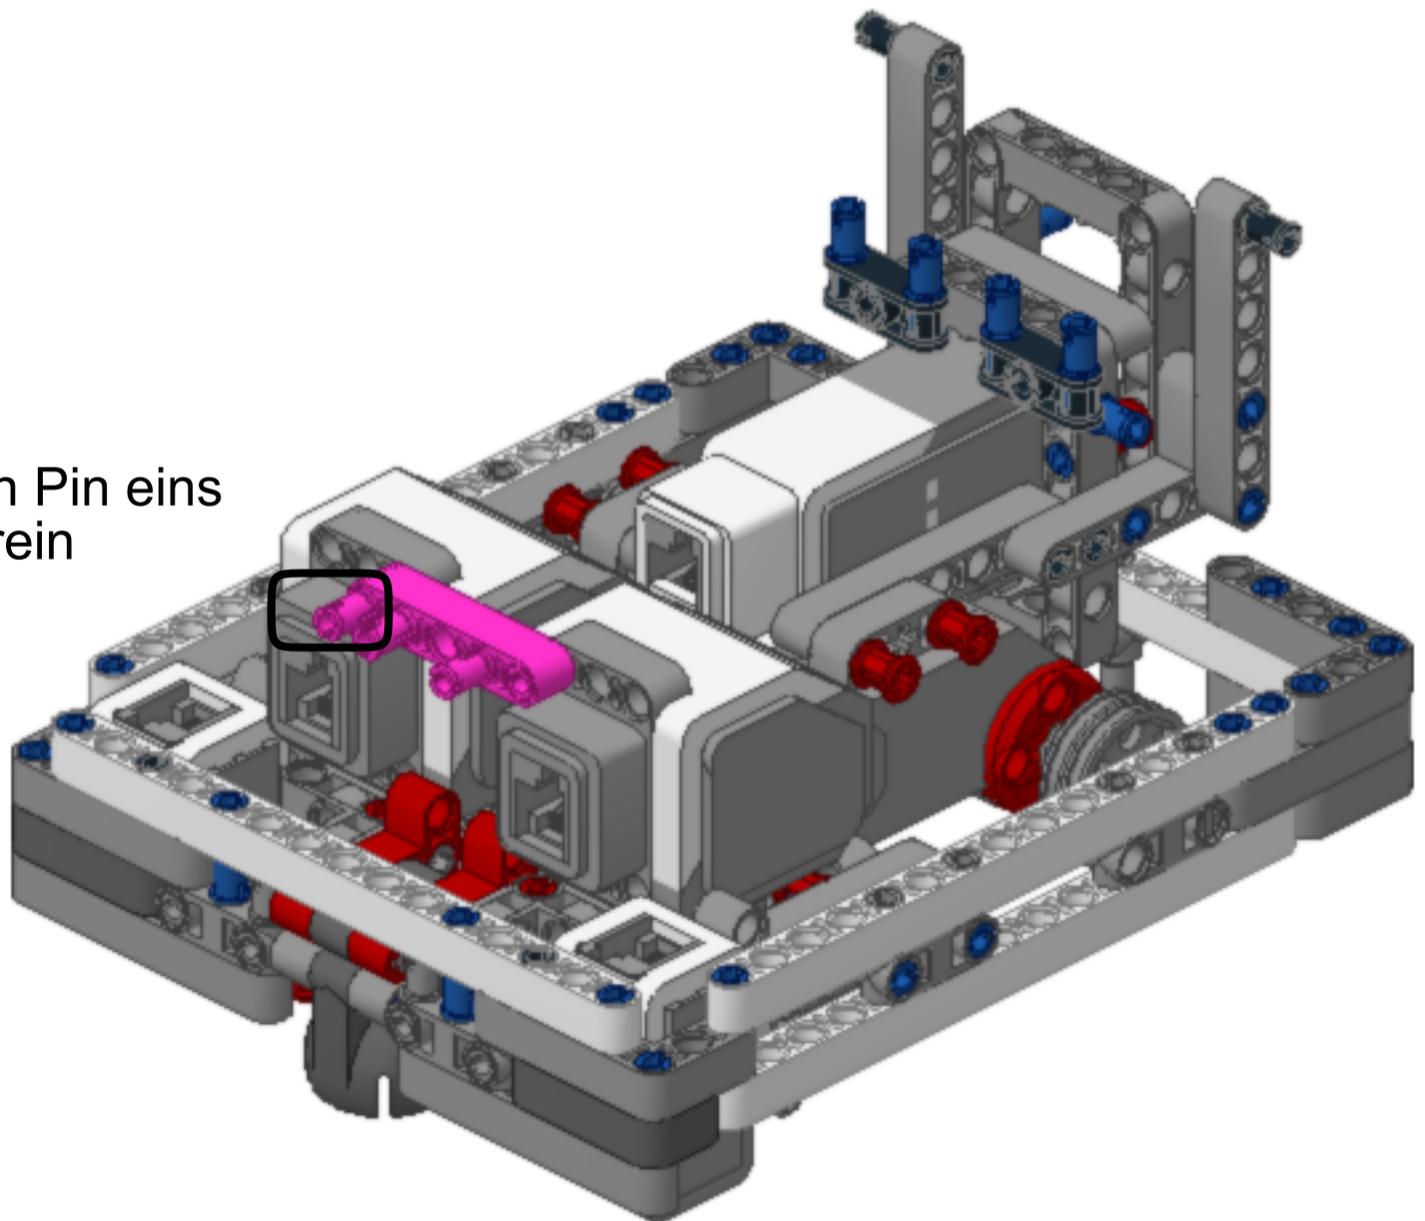

28

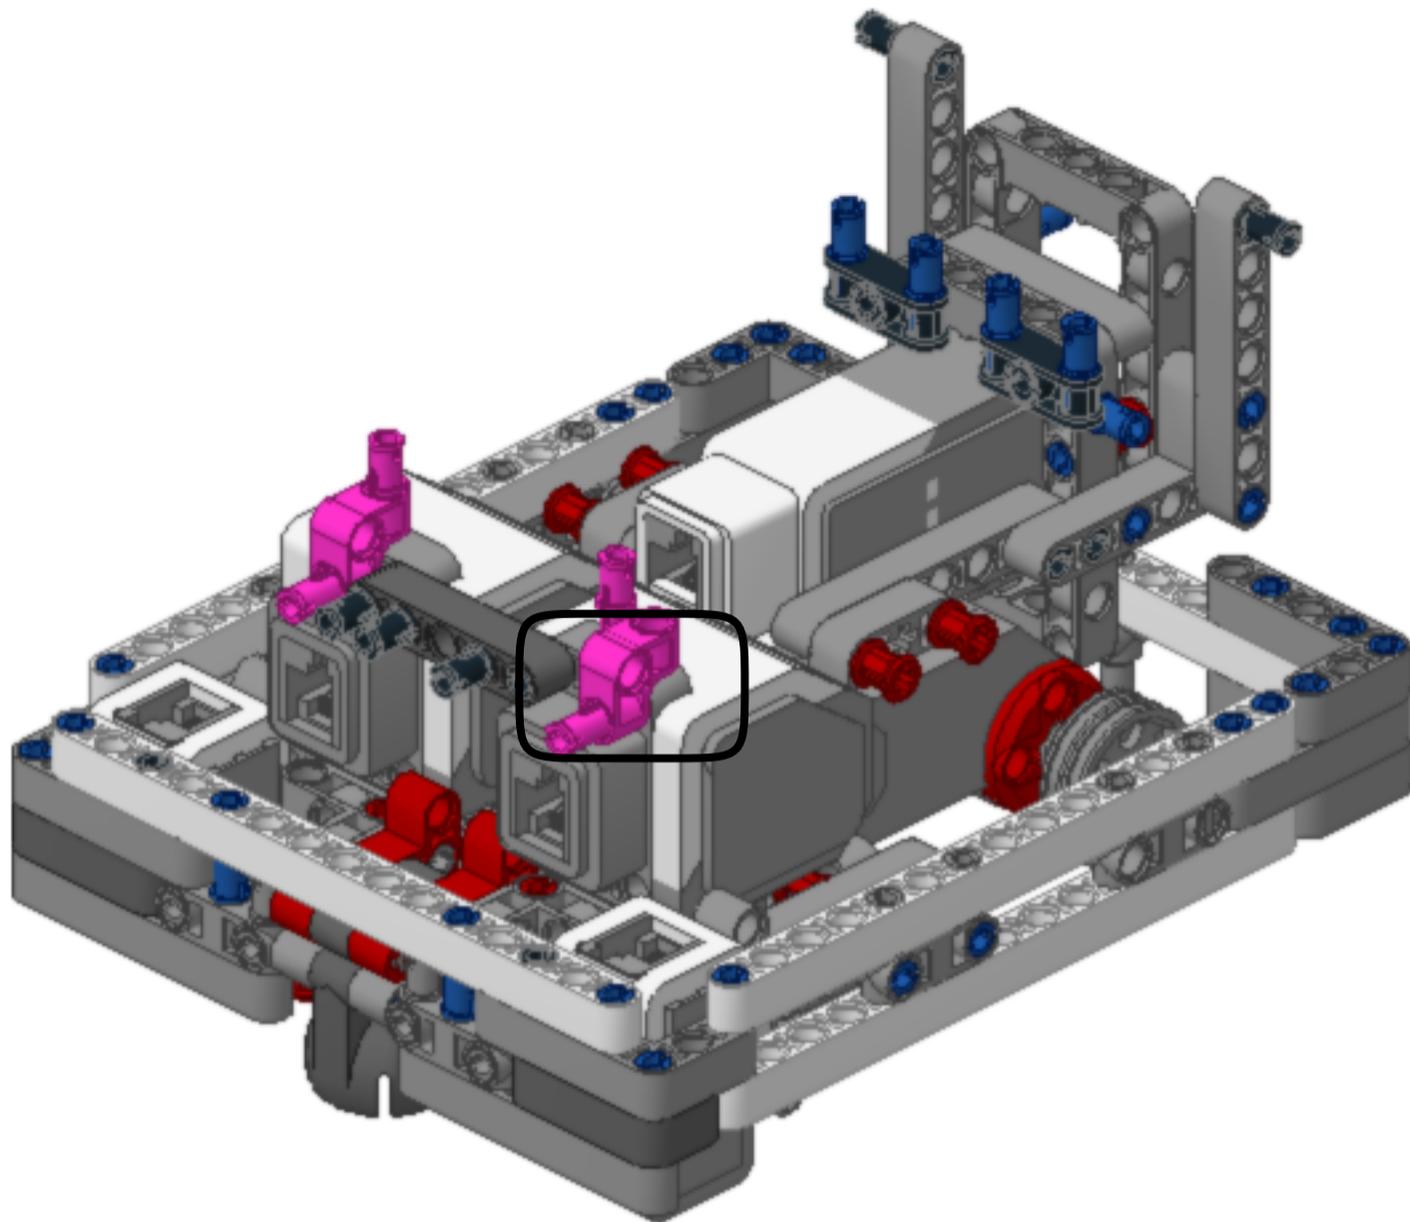

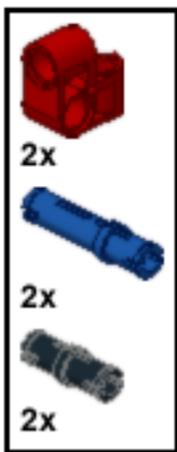

29

Diesen Pin eins tiefer rein

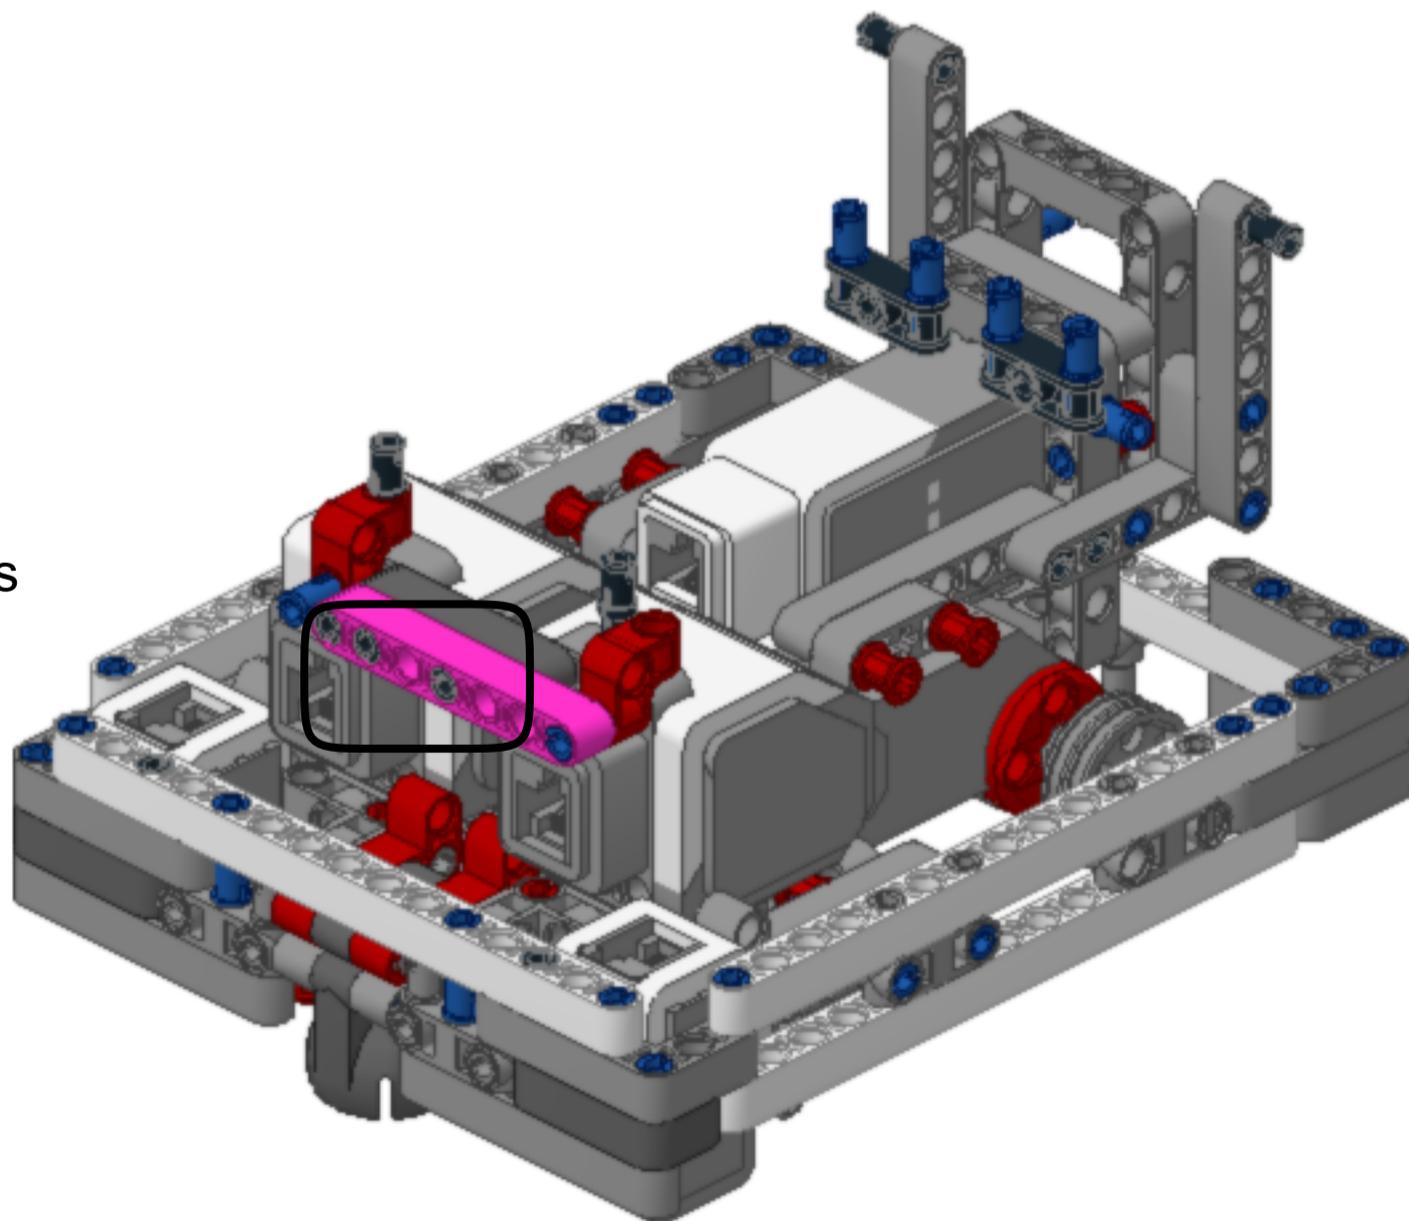

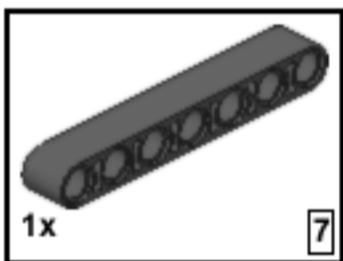

30

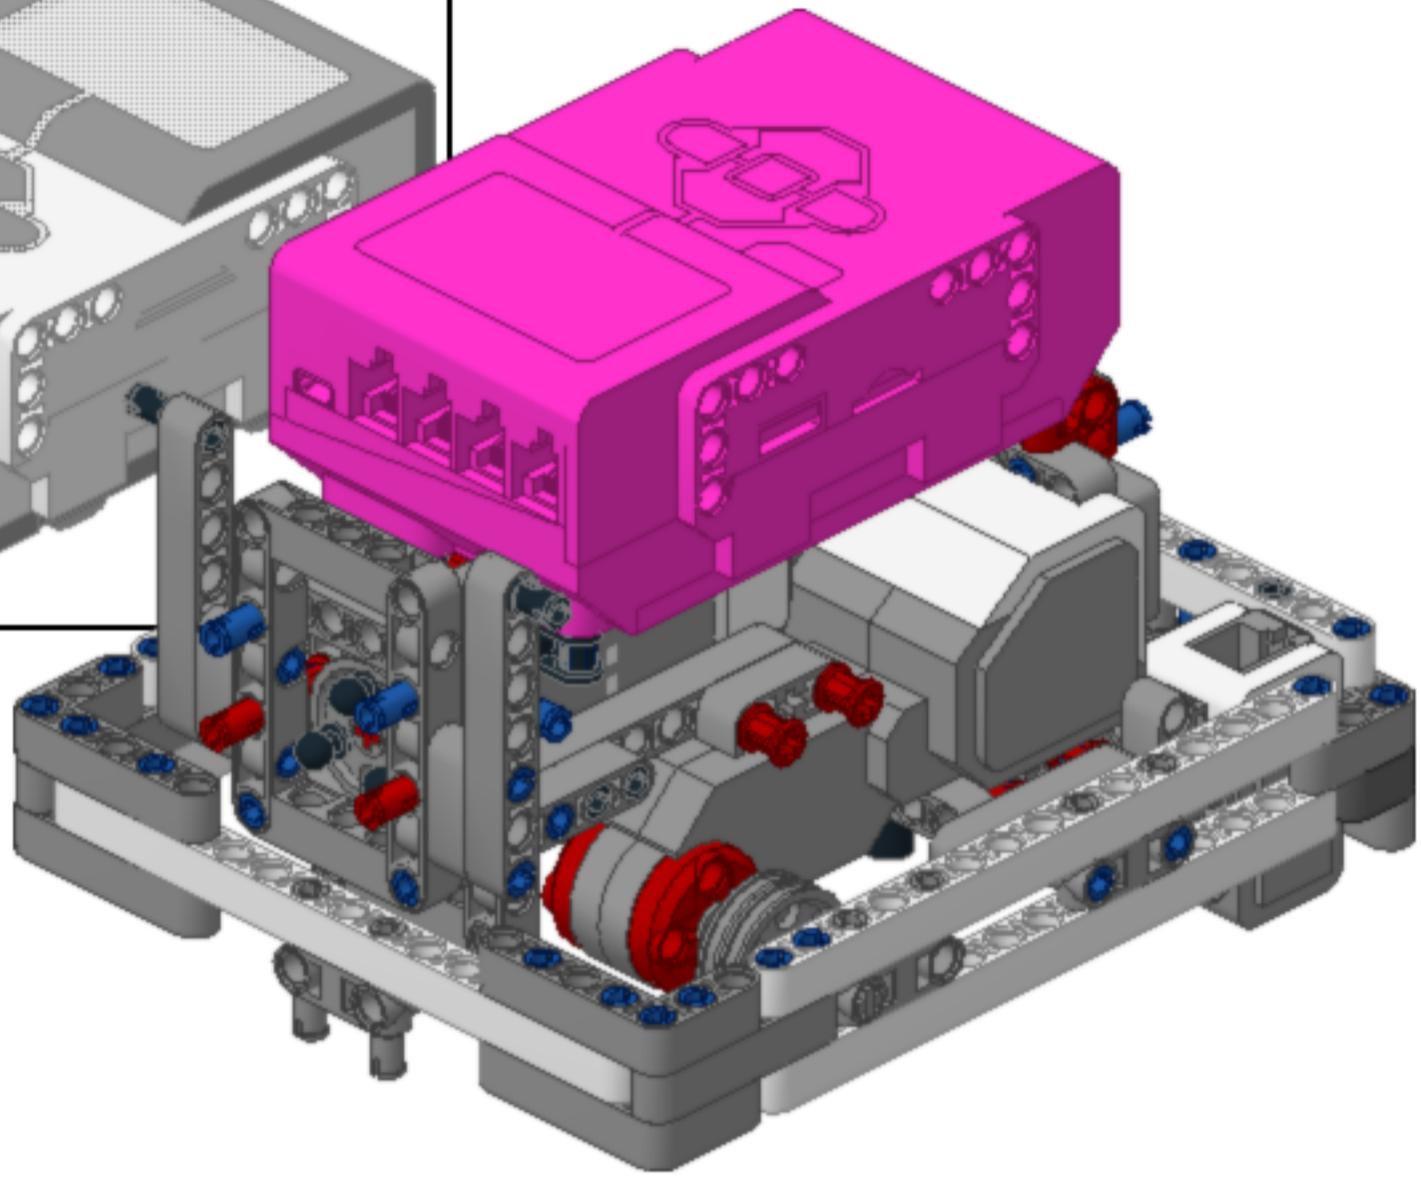

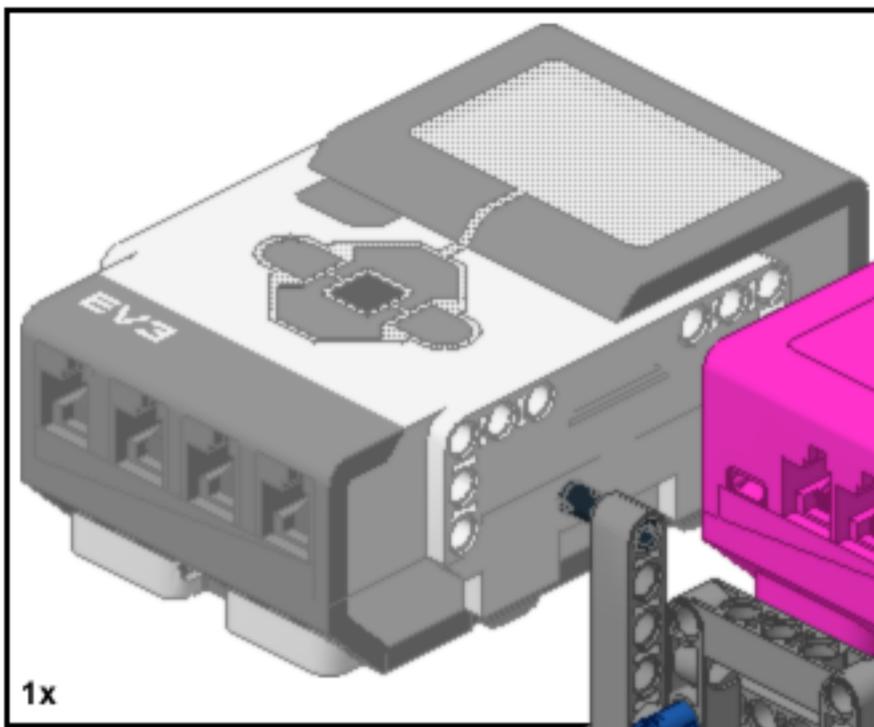

Diesen eins
weiter nach
links

31

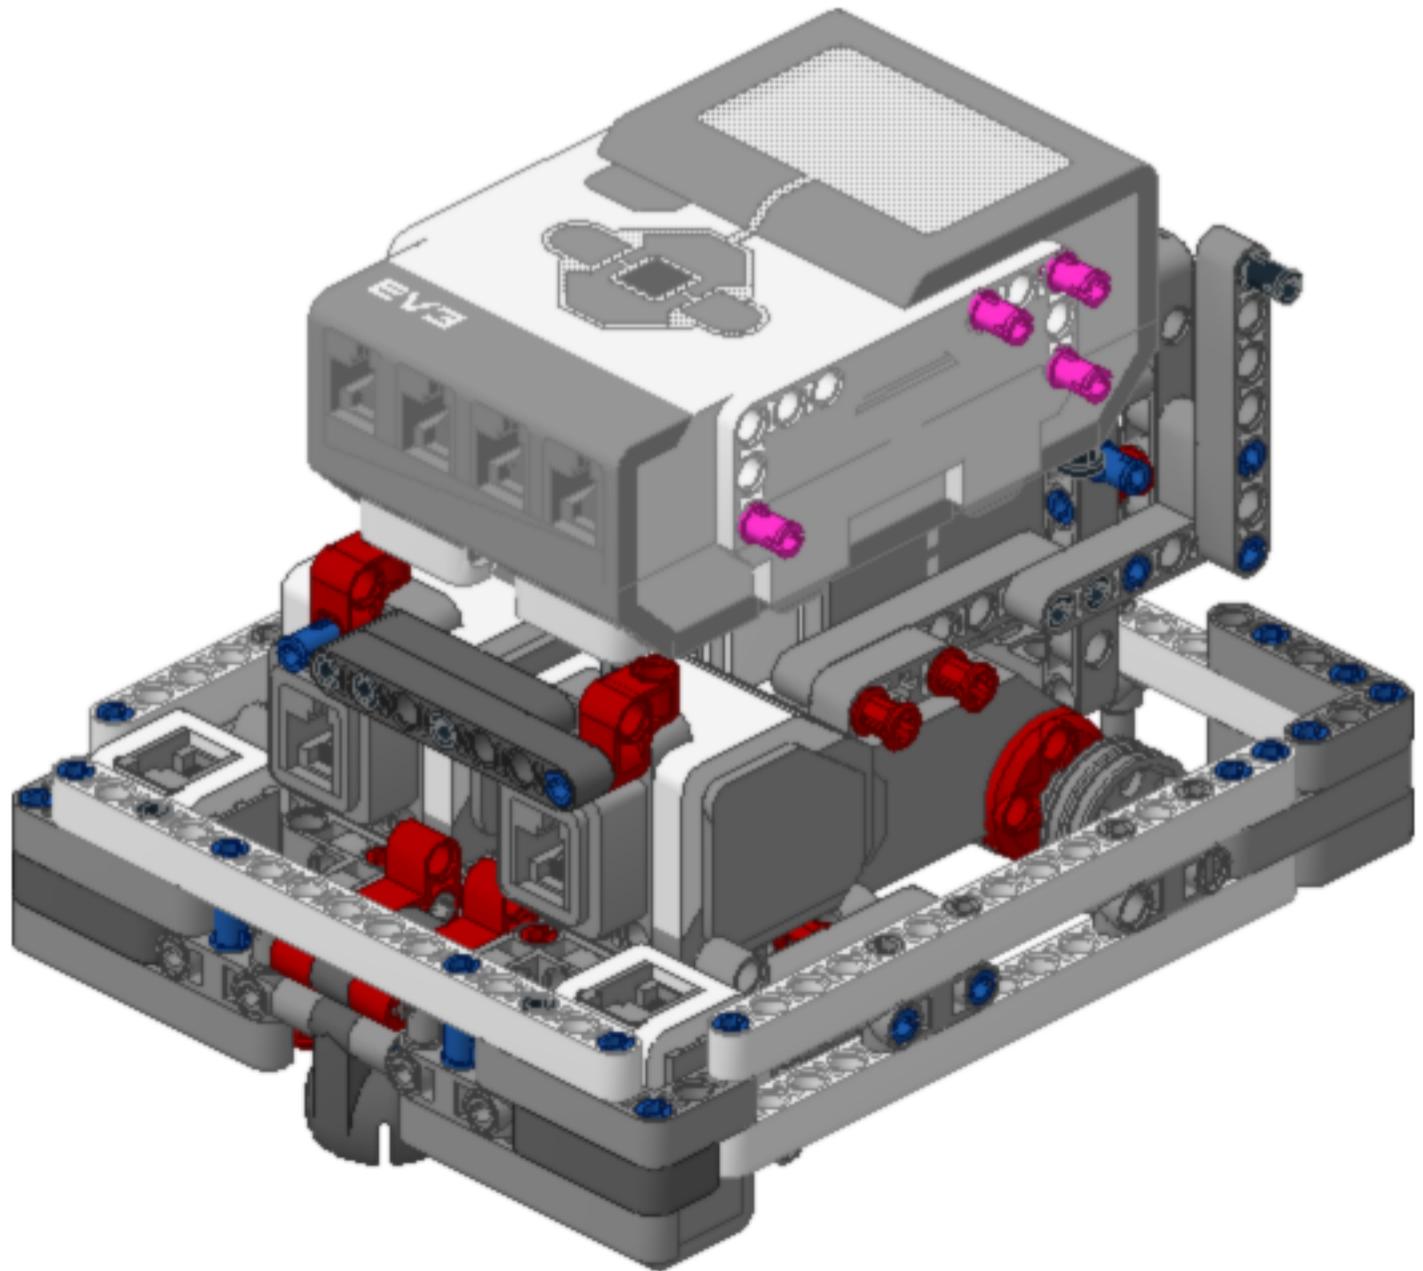

Den 7er auch eins
nach links

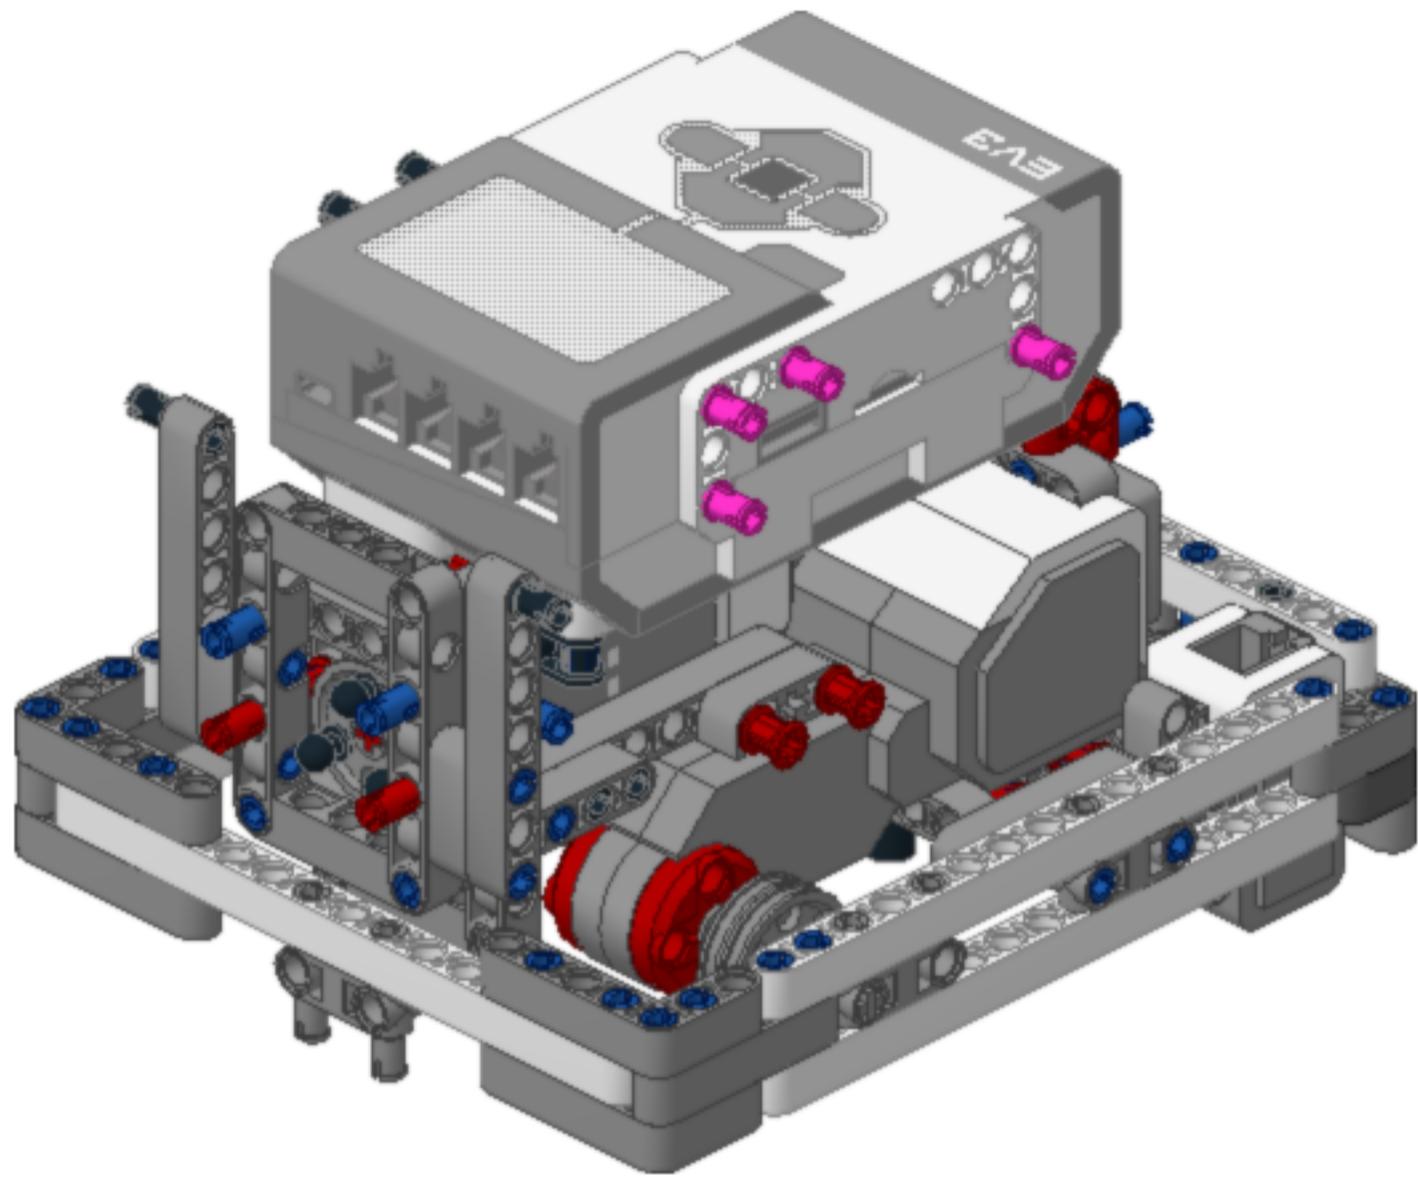

32

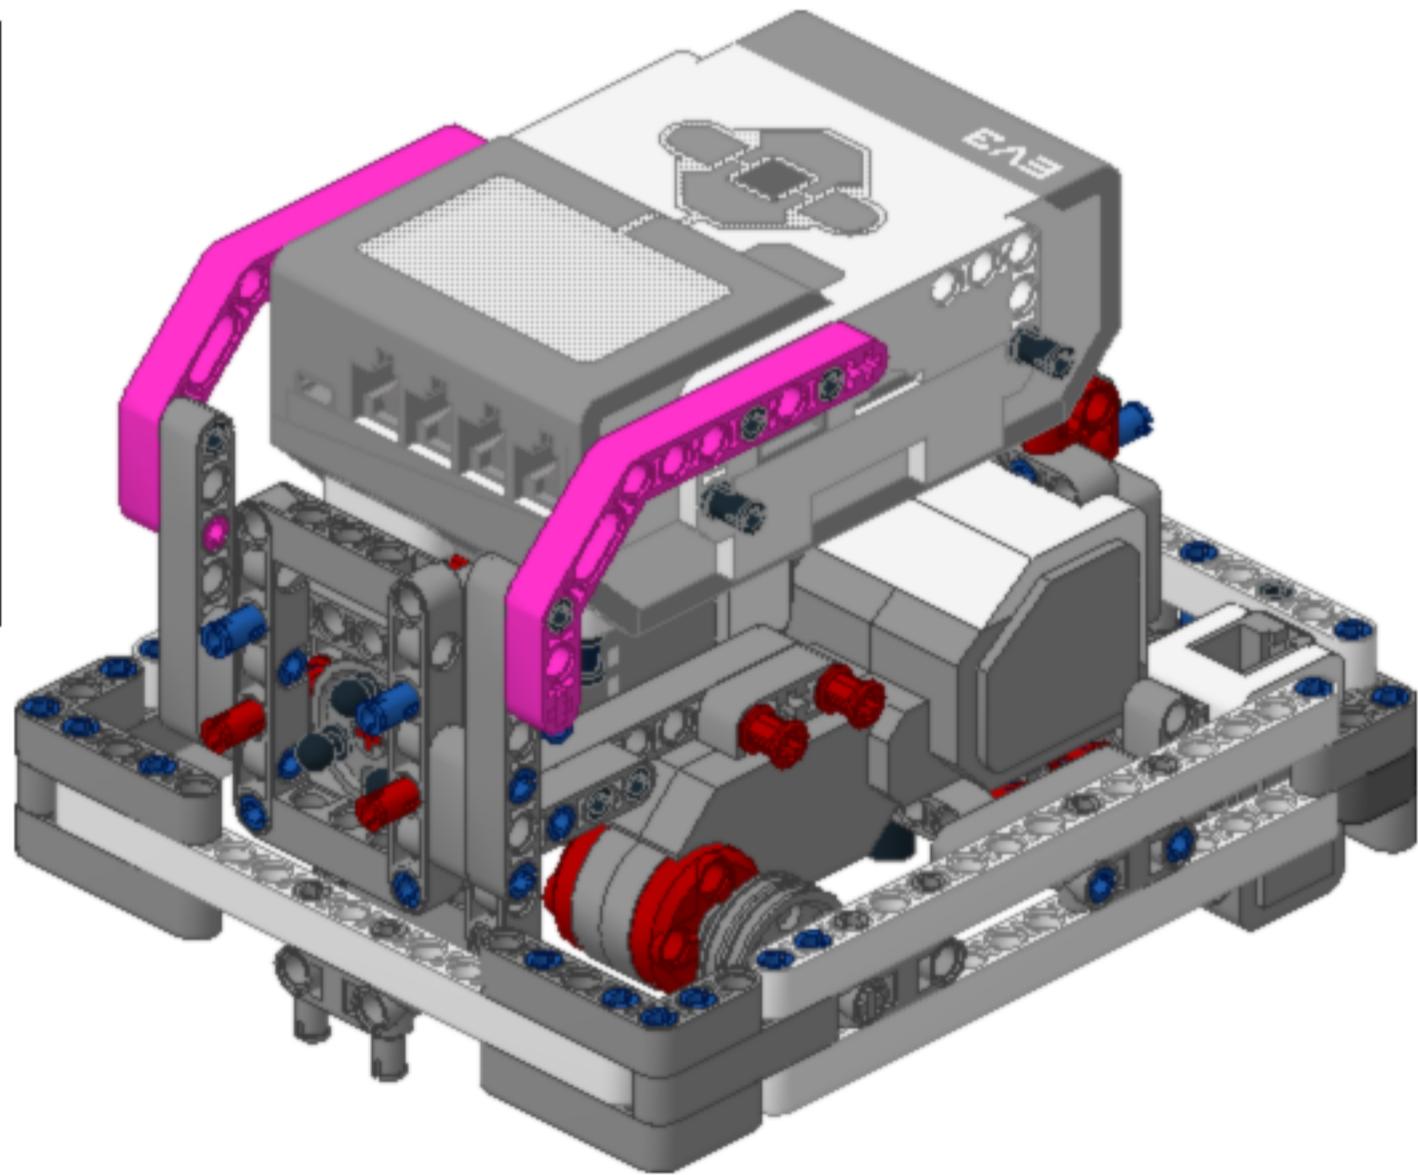

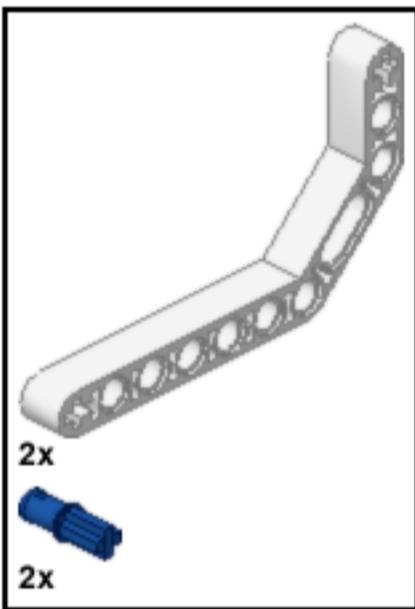

33

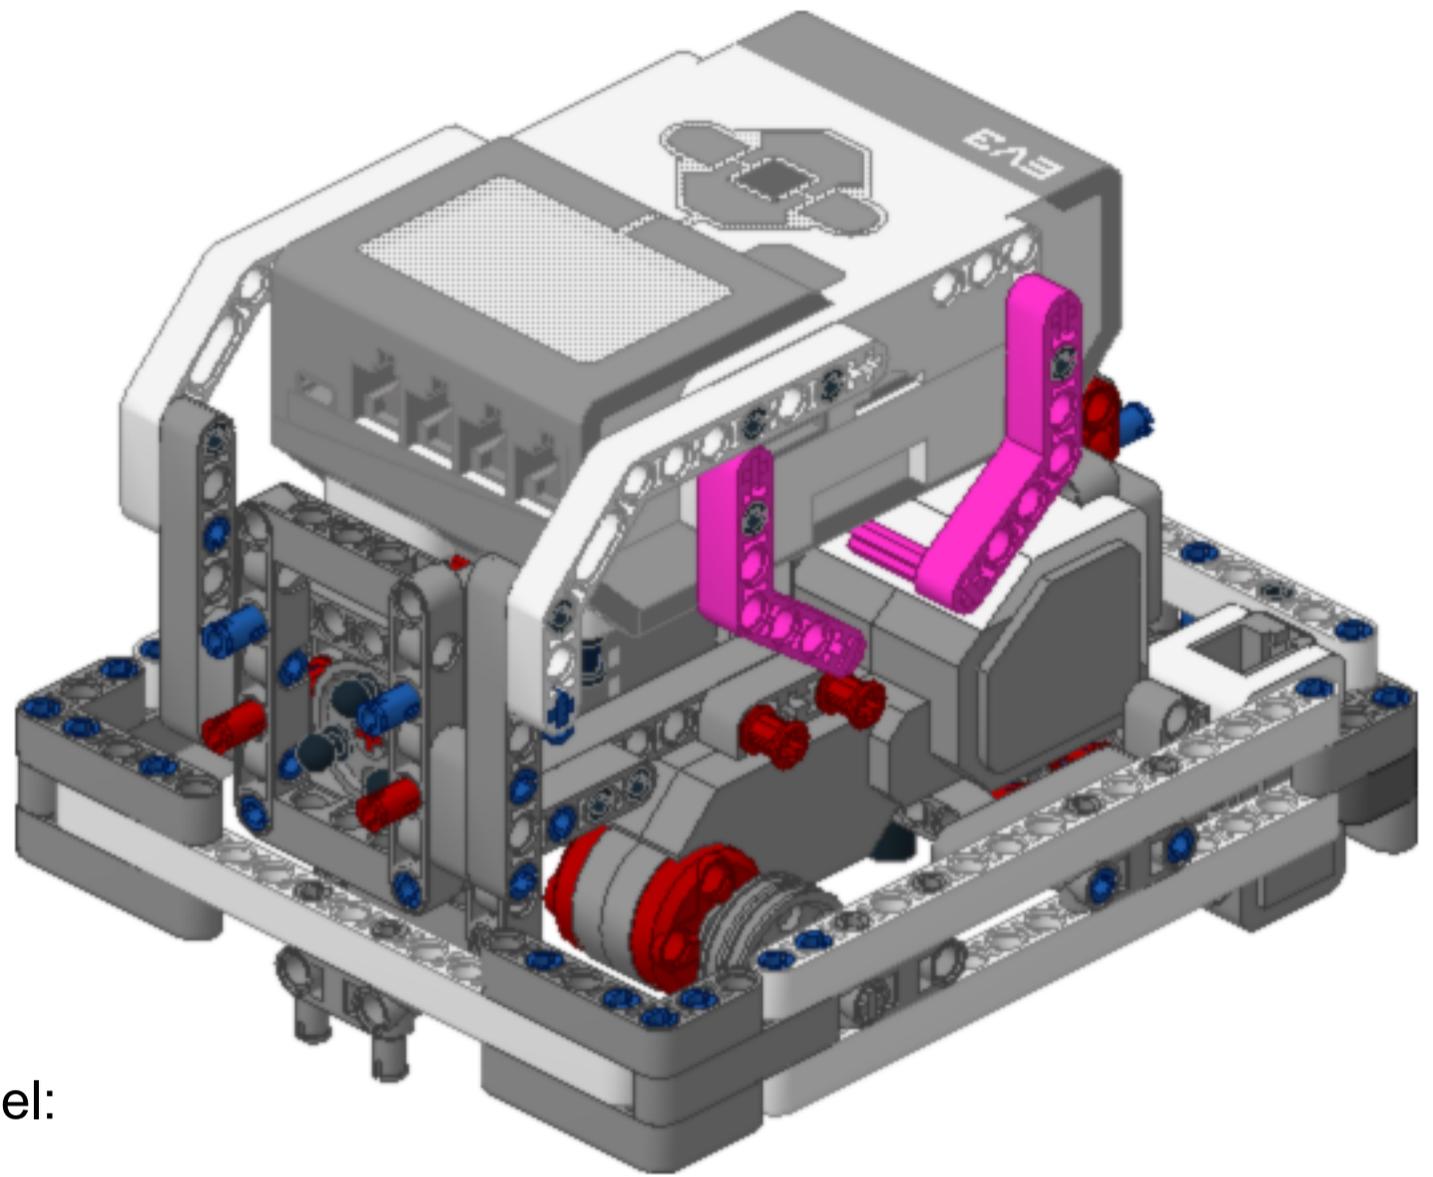

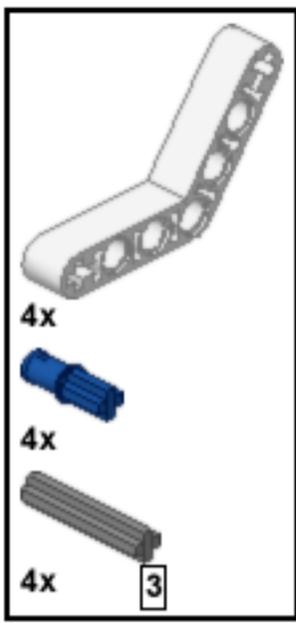

34

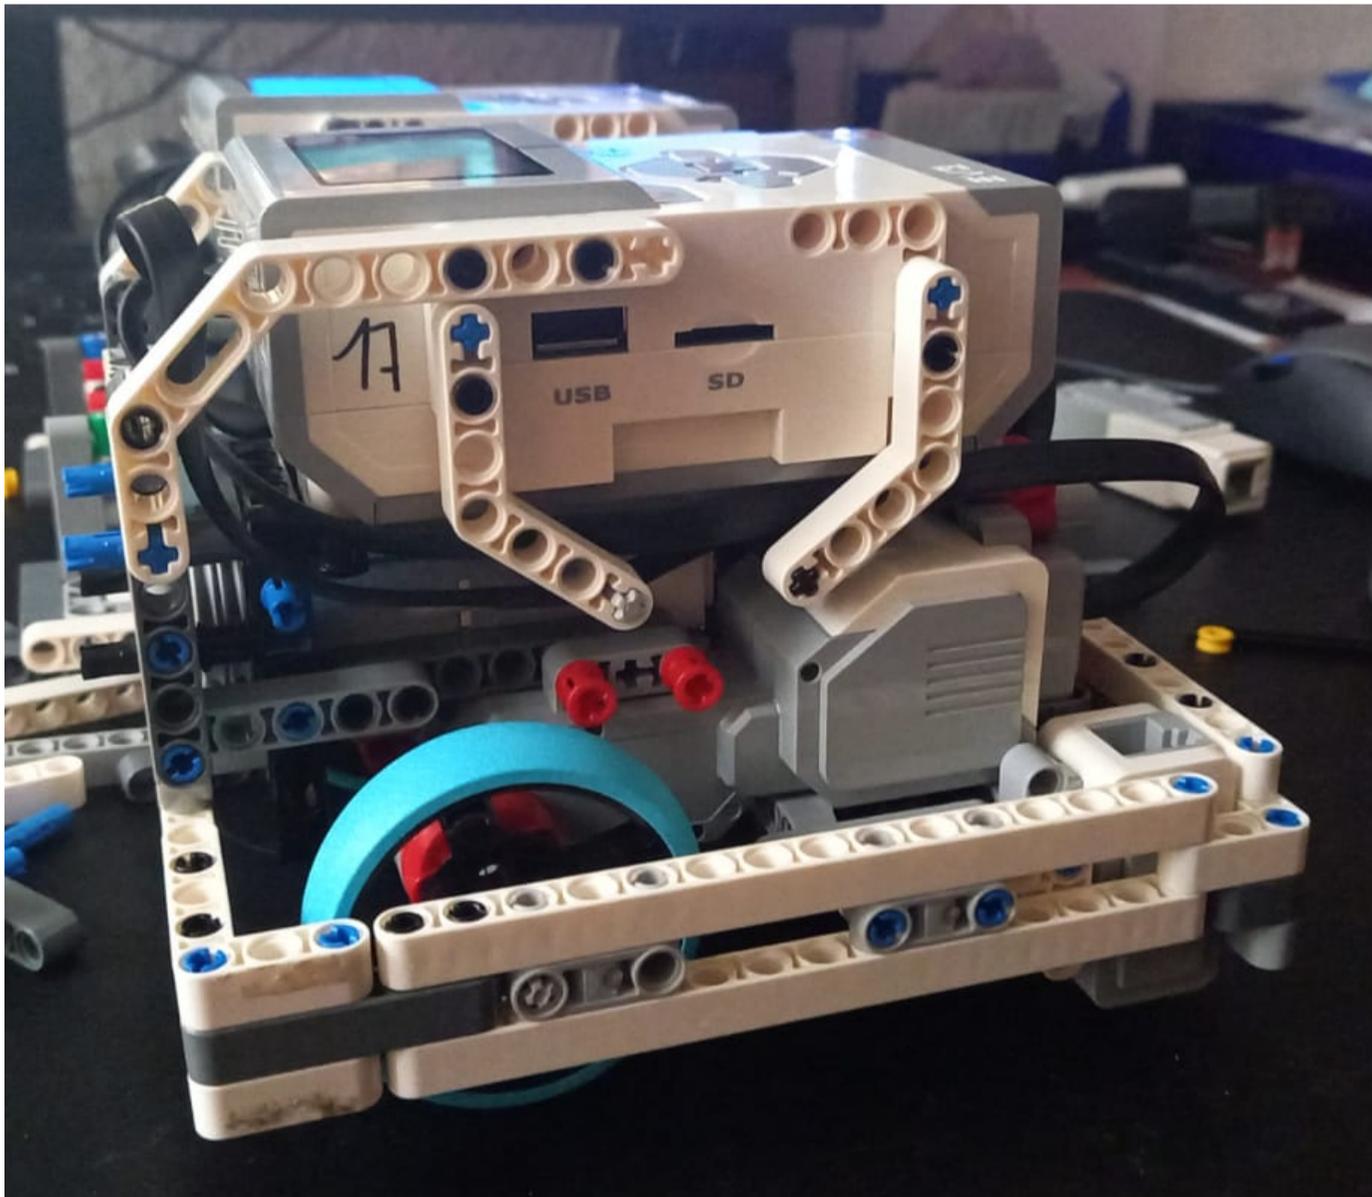

35

36

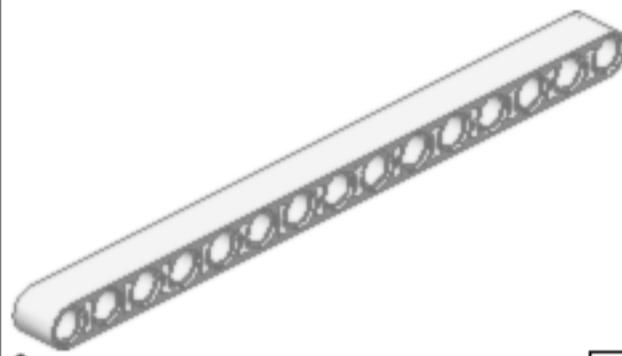

und jetzt die Kabel:
Gyro in die 4
Fahrmotor links muss links vorbei in B
Fahrmotor rechts muss rechts vorbei in C (nicht Kreuzen!!!)
kleiner Motor nach A
Lichtsensoren erstmal nicht anschließen
Alle Kabel hinter den Winkeln durchziehen (siehe Bild)
